

CSIF (CH) Equity SPI Multi Premia Blue

Class DB

Investment policy

The fund is managed with an indexed approach and is distinguished by its broad diversification, minimal tracking error, and cost-effective management.

Strategy indices deliberately deviate from market capitalization in their weighting in order to capture factor premiums or reduce the investment risk.

The SPI Multi Premia® Index combines seven SPI Single Premia® indices, each of which captures a systematic source of return (so-called factors). The SPI Multi Premia® Index offers a broad and diversified investment in Swiss equities, because the relative returns of the individual strategies have only a low correlation.
