

finpension Climate Impact 40

Investment risk: **medium**

Factsheet as at 31.08.2025

Brief description

The finpension Climate Impact 40 strategy invests 40% in equities and 59% in bonds. The equity component is diversified worldwide based on the size of the companies' stock market valuations. Companies that attach importance to reducing emissions of climate-damaging greenhouse gases are favoured. To avoid hedging costs for currency risks and higher income taxes, the bond portion is held in Swiss francs. The investment strategy is implemented passively by means of exchange-traded funds (ETFs) and index funds.
