

finpension Europe 60

Investment risk:

high

Factsheet as at 31.01.2026

Brief description

The finpension Europe 60 strategy invests 60% in equities and 39% in bonds. The equity component is diversified worldwide based on the size of the companies' stock market valuations, with European stocks being significantly overweighted. To avoid hedging costs for currency risks and higher income taxes, the bond portion is held in Swiss francs. The investment strategy is implemented passively by means of exchange-traded funds (ETFs) and index funds.
